</tbody>
</table>
8:30 | Registration
Tel Aviv University, Gilman Building of Humanities, fourth floor, room 496

9:00 | Eli Anne Eiesland and Urd Vindenes | University College of Southeast Norway & University of Oslo
Subject doubling in Norwegian: A corpus investigation

9:30 | Elitzur Dattner, Liron Kertes and Dorit Ravid | Tel Aviv University
Pronominal subjects in preschoolers Hebrew peer talk

10:00 | Rose Stamp, Svetlana Dachkovsky and Wendy Sandler | Haifa University
A kinematic investigation into the phonetic reduction of reference marking in a young sign language

10:30 | Júda Ronén | The Hebrew University of Jerusalem
Wyddoch-Chi-Pwy: Harri Potter and the sociopragmatics of second person

11:00 | Coffee

11:30 | Gilad Brandes | Tel Aviv University
A corpus-based analysis of adverbial clause functions in the development of Hebrew text production

12:00 | Svetlana Dachkovsky, Rose Stamp and Wendy Sandler | Haifa University
Gradual recruitment of body articulations for discourse structuring: Case study in a young sign language

12:30 | Batia Seroussi, Anat Stavans and Sara Zadunaisky-Ehrlich | Levinsky College of Education
Relations between lexical knowledge and the lexical quality of expository texts produced by Hebrew-speaking children

13:00 | Efrat Raz | Tel Aviv University
Information, verb morphology and syntactic transitivity in written Hebrew discourse across development

13:30 | Lunch

14:30 | Mark Davies | Brigham Young University
The 5.7 billion word NOW corpus (with 4–5 million words each day): A unique window into ongoing changes in English

15:00 | Patrick Duffley | Université Laval
How can an adverb define an extension and have subject function in a sentence? Pragmatiquement, bien sûr!

15:30 | Guro Nore Flagstad and Eli Anne Eiesland | University College of Southeast Norway & MultiLing Center for Multilingualism in Society across the Lifespan
Gender shift in Norwegian: The ei iittha-construction

16:00 | Pavel Ozerov | The Hebrew University of Jerusalem
The semantics of apparent “focus-particles” in two Tibeto-Burman languages

16:30 | Coffee

17:00 | Emmanuel Keuleers | Tilburg University
A transaction-based view on the language environment

Conference dinner
8:30 | Registration  
Tel Aviv University, Gilman Building of Humanities, fourth floor, room 496

9:00 | Susanne Flach | Université de Neuchâtel  
Formal constraints in a usage-based perspective: Converging evidence from corpus and experimental methods

9:30 | Michal Láznika | Charles University, Prague  
Frequency effects in Czech case homonymy

10:00 | Amy M. Lindstrom | Old Dominion University  
Sounds like a recipe for collocations: A quantitative analysis of Abstract It

10:30 | Ori Lavi Rotbain and Inbal Arnon | The Hebrew University of Jerusalem  
Statistical learning and entropy

11:00 | Coffee

11:30 | Shully Wintner | University of Haifa  
Computational approaches to the study of translation (and other crosslingual language varieties)

12:30 | Lunch

13:30 | Elior Sulem, Omri Abend and Ari Rappoport | The Hebrew University of Jerusalem  
Semantic structural evaluation for text simplification

14:00 | Tianyi Zhang and Shimon Edelman | Cornell University  
Modeling language dynamics

14:30 | Lukas Denk | University of New Mexico, Albuquerque  
Towards a usage-based explanation for second-position clitics

15:00 | Eugenio Goria and Caterina Mauri | Università degli Studi di Bologna  
From similitative to exemplification: Emerging constructions with come in spoken Italian

15:30 | Coffee

Organized panel  
The intonation unit in time: Where prosody, grammar, and cognition meet

16:00 | John W. Du Bois | University of California, Santa Barbara  
How basic is the intonation unit?

16:30 | Tirza Biron | Weizmann Institute of Science  
Deus ex Machina: A computerized study of prosody produces a new analytic paradigm for non-verbal linguistic information

17:00 | Daniell Baum | Weizmann Institute of Science  
Automating prosodic segmentation of spoken language

17:30 | Argyro Katsika and Nicholas A. Lester | University of California, Santa Barbara  
Lexico-syntactic information and prosodic structure in interaction

End of conference
